

Congratulations to
Malancha Gupta
 Recipient of an
NSF CAREER Award

The Viterbi School is proud to announce that Malancha Gupta, assistant professor in the Mork Family Department of Chemical Engineering and Materials Science, has received a 2013 NSF CAREER Award.

This award provides funding for the development of a new technique to deposit functional porous polymers onto porous materials. This research will allow Professor Gupta to develop advanced materials for healthcare applications such as microfluidic devices for disease detection and multifunctional filtration membranes for water purification.
