USC Viterbi

School of Engineering

In a fitting capstone to his 50th year at the USC Viterbi School of Engineering, Solomon Golomb, the Andrew and Erna Viterbi Professor of Communications, has received the National Medal of Science, the highest honor bestowed by the U.S. government upon scientists, engineers, and inventors.

Golomb, one of the “Magnificent Seven” founders of the USC Communication Sciences Institute, has made profound contributions to mathematics and engineering, particularly in signal design for interplanetary communications, data compression, cellular telephones, radar, and cryptography.
