Congratulations to
Andrea Armani
Named a World Economic Forum Young Global Leader
USC Viterbi

USC Viterbi
School of Engineering

The USC Viterbi School of Engineering is proud to announce that ***Andrea Armani***, professor in the Mork Family Department of Chemical Engineering and Materials Science, has been named a ***2015 World Economic Forum Young Global Leader***, joining a community of the most distinguished leaders under the age of 40, nominated from around the world.

This honor recognizes her professional accomplishments, commitment to society and potential to contribute to shaping the future of the world through her inspiring leadership. ***She is one of only two academics from the US with that distinction.***

Armani conducts cutting-edge research in the areas of biological and chemical sensors and microfluidics; the development of novel surface chemistries; optical device design and characterization; as well the synthesis of optical materials.
