The USC Viterbi School of Engineering is proud to announce that **Paul Bogdan**, assistant professor in the Ming Hsieh Department of Electrical Engineering and **Minlan Yu**, assistant professor in the Computer Science Department, have both received an NSF CAREER Award, the National Science Foundation's most prestigious award in support of junior faculty who exemplify the role of teacher-scholars through outstanding research.

Paul Bogdan

Bogdan designs and optimizes medical cyber-physical systems for use in artificial organs and medical devices, as well as bacteria propelled micro robotic swarms for drug delivery purposes.

Minlan Yu

Yu co-leads the Networked Systems Lab focusing on data networking, distributed systems, enterprise and data center networks, network virtualization, and software-defined networking.
