

Congratulations to

Scott Fraser

Elected to the
National Academy of
Medicine

USC Viterbi
School of Engineering

USC Dornsife
Dana and David Dornsife
College of Letters, Arts and Sciences

Keck School of
Medicine of **USC**

The USC Viterbi School of Engineering congratulates **Scott Fraser**, Elizabeth Garrett Chair in Convergent Bioscience, on his election to the **National Academy of Medicine**. Fraser is Provost Professor of Biological Sciences, Biomedical Engineering, Physiology and Biophysics, Stem Cell Biology and Regenerative Medicine, Pediatrics, Radiology and Ophthalmology, with joint appointments at USC Viterbi, as well as the USC Dornsife College of Letters, Arts and Sciences.

Fraser, who was recognized for his groundbreaking achievements in biology and medicine, is one of only 90 of the world's leading scientists elected to the academy this year. Fraser is a leading figure in the field of imaging and molecular analyses of intact biological systems. He has previously served as the founding director of the Caltech Brain Imaging Center and the Rosen Center for Biological Engineering.

In 2012, Fraser moved to USC as Provost Professor, and is now director of science initiatives for USC as well as co-director of the Bridge Institute at the USC Michelson Center for Convergent Bioscience.
