VSoE Global Initiatives

- VSoE to have strong branding globally; in India and China
 - Global attractor of talent in terms of faculty and students
 - Opportunities for collaborative research and education
 - Friendraising and fundraising
-
- We have strong presence in China, India, Korea, Mexico, and other countries
 - Advisory Boards for China and East Asia, and India with annual meetings
 - Offices in Mumbai, Bangalore in India; Shanghai and Beijing in China
 - I-Podia alliance with partner institutions in 10 countries
 - **USC Has a new Global Engagement with focus on India**

VSoE Global Presence

- **Establish ties with top institutions around the world**
- **Particularly in China, India, we have many partner institutions**
- **Ties in Korea, Singapore, South America, UK, and other countries**
- **Perception and branding important. Pipeline of quality students**
- **Annual Board Meetings in India and China**
- **Support for responding to international collaboration projects**
- **Connecting with our partner institutions for faculty traveling in other countries**
- **Work with USC globalization office and our offices abroad**
- **Global Faculty Outreach program started in Spring 2019**

Research collaboration with international partners

- Korea: Airbus, GE, Pratt and Whitney
- Hong Kong: Reducing pollution and improving efficiency of diesel engines – with TCC Foundation
- China: Research projects for US-China collaborations
- Mexico: CONACyT PhD Fellowships; Postdocs program
- India: TCS; IUSSTF AI Initiative
- India: SERB PhD Fellowships; 5 each year for 4 years

Academic Collaborations

Overseas academic collaborations and recruitment of undergraduate and graduate students

- Focused efforts for India and China for academic collaborations
- Expansion of I-Podia to many countries and different courses
- Dual degree programs ; online certificates

Collaboration (from student exchange to summer interns to research) with a number of universities

- Viterbi-India Program: 15-20 students completing 3rd year of studies from IITs, BITS, IIITs come to USC each year
- Students from Tsinghua University
- Sister2Sister from Pakistan and KAUST students
- Students from Korea, Mexico

- Research and education collaboration between VSoE and the School of Information Science and Technology Tsinghua University
- **Funded by common alumnus Feng Deng**
- **Research Symposia since 2007 to lead to faculty collaboration between the two schools in important research areas.**
- **Summer internships, both at USC and at THU (typically for undergraduates);**
- **8 to 12 students from THU come to USC and 4 to 6 USC students go to THU each summer**
- **Dual Graduate Degrees, THU MS/PhD students to come to USC for a Master's degree and vice versa**

IUSSTF-Viterbi Program

Research Experience for undergraduate students

- Established in 2010 with support from IUSSTF
- Each summer 15 students completing 3rd year of studies from IITs, BITS, IIITs in EE and CSCI areas come to USC
- Students spend 8 weeks at USC during summer and conduct research with faculty
- Highly selective program with over 400+ students applying for 15 spots each summer
- Initial screening by IUSSTF officers and final selections by USC

Summary

- **Establish strong presence and brand globally**
- **Be a global attractor of top talent to VSoE**
- **Friendraising and Fundraising globally**
