

Our Focus

01

Sustainability

Energy, water, climate, food,
materials, ecosystems,
natural resources

02

Health

Bioengineering,
biochemical
engineering, health
sciences, medicine

03

Security

Cyber, space, national
security, infrastructure,
electronics, supply
chains

04

Enriching Life

Computing, arts,
education, entertainment,
enabling scientific and
technological discovery

05

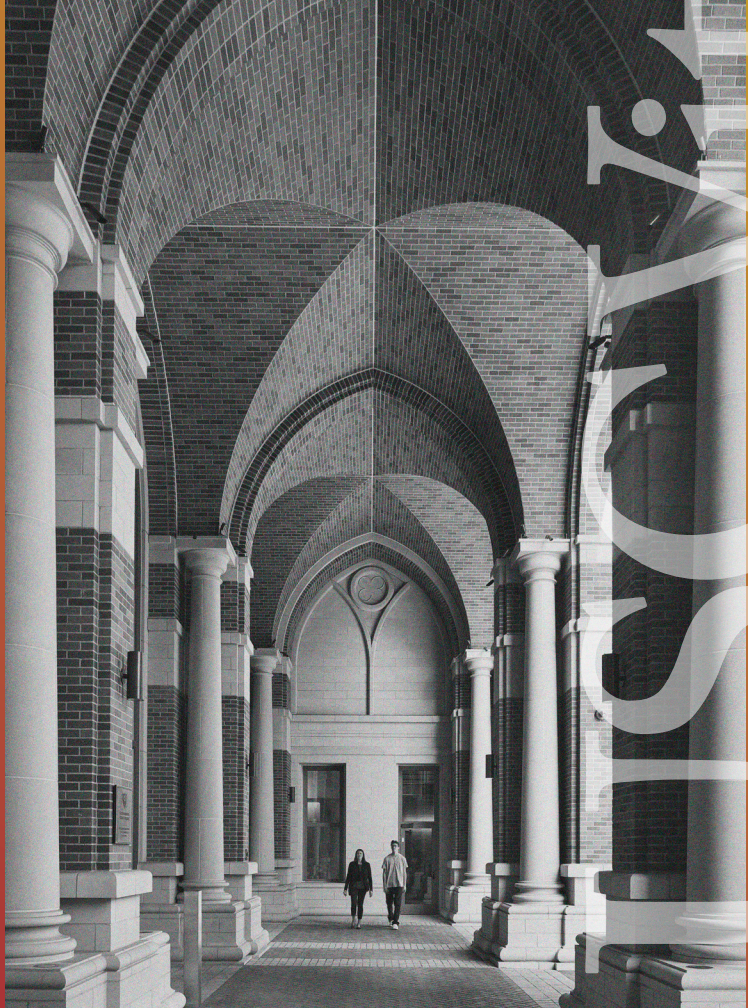

Engineering Impact on Society

Communication,
innovation, policy,
grand challenges,
societal impact

*Engineering a
Better World
for all Humanity*
