

*Congratulations to*

Eun Sok Kim

*Elected to the*

National Academy  
of Inventors

**USC**  
Viterbi  
School of Engineering

# USC Viterbi School Professor Eun Sok Kim has been elected a National Academy of Inventors (NAI) Fellow.

Non-Profit  
Organization  
US Postage  
Paid University  
of Southern  
California

This is the highest professional distinction given solely to academic inventors. A total of 25 Viterbi faculty members have been so honored since the NAI launched its fellows program in 2012.

Kim is a professor in the Ming Hsieh Department of Electrical and Computer Engineering (Electrophysics). His contributions stem from acoustic, piezoelectric, and vibration-energy-harvesting microelectromechanical systems (MEMS). He published a textbook titled Fundamentals of Microelectro-

mechanical Systems (MEMS), and has authored about 270 refereed papers. He holds 19 U.S. patents, along with five patents pending, in the field.

Kim has secured about \$20 million as the contact principal investigator (PI) in non-equipment research grants (\$18 million as his portion only), and he currently leads a research group of two postdocs and seven PhD students.

CONGRATULATIONS,  
PROFESSOR KIM!
